What did you learn?

I learned it is ok to be yourself when others are expecting something different from you. I learned that networking isn't just about the people you know but almost like therapy to understand you are not the only one with struggles and there are ways to overcome them. Also there will always be a gender bias in business but that doesn't mean to give up on your dreams

Did you meet anyone new?

I met the director of United Way and the VP of twitter.
